ABOUT US

We “BS Electricals” Established in the year 2008 at Bharuch (Gujarat, India), We take pride and pleasure in introducing ourselves as a leading Electrical Contractor involved in the execution of Electricals Installation Work, Testing & Commissioning Works, Electrical Turnkey Solutions, Networking, Security, and Fire Alarm Systems across India. Our experience covers a broad discipline in the field of electrical engineering from the execution of infrastructure facilities to complete HV (High Voltage) and LV (Low Voltage) electrical systems.

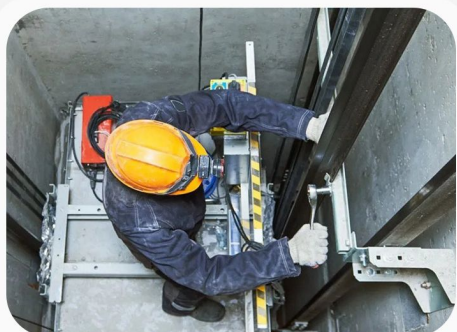

We are Government approved Electrical Licensed Contractor in India. Apart from this, we have a team of experienced and licensed electricians who are committed to delivering high-quality services to our customers. Engineers and project managers who understand the electrical and construction industries and bring their expertise to each project. The firm focuses on quality workmanship, timely project completion and strict attention to safety standards to help them ensure 100% customer satisfaction.

The company has been associated with many prestigious projects in the past. During this period of growth, BS Electrical has established a strong relationship with its customers and earned appreciation for its approach to detailed engineering, designing, drawing, implementation, energy and safety audits, operation, and maintenance.

We are equipped with a professional engineering team handling every aspect of the project. From tendering to execution of projects, we track each and every aspect including planning, procurement, and implementation for successful completion. In addition, Mr. Sudhakar has also been associated with large companies in India such as Torrent Pharmaceuticals Ltd, Lupine Ltd., Afcons Infrastructure Ltd., Opel, and L&T over the years. He has more than 20 years of work experience in the planning and execution of electrical installations.

Safety

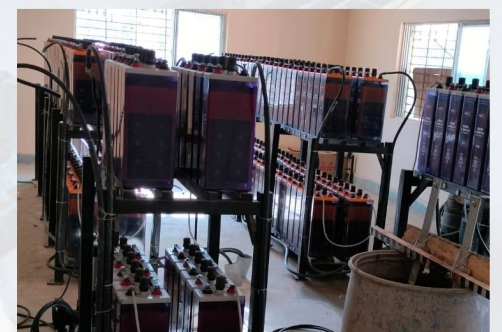

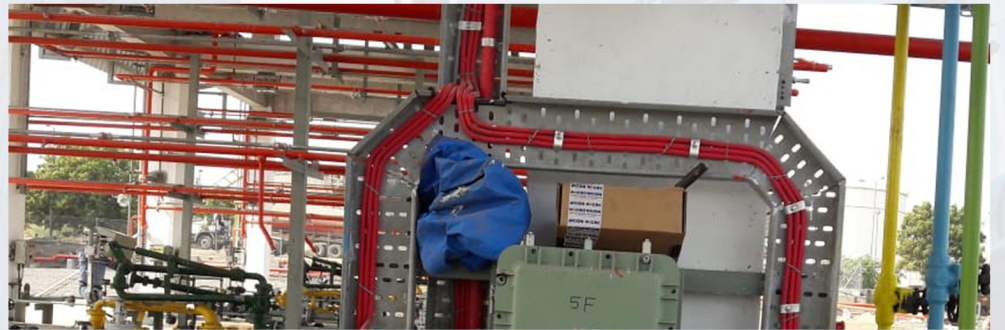

A worker in a grey protective suit and yellow gloves is working on an electrical panel. The worker is wearing a hooded suit and yellow gloves with orange accents. The panel is open, showing internal components and wiring. In the background, another worker in a yellow safety vest and helmet is visible, working on a structure. The overall scene is a professional electrical maintenance or installation site.

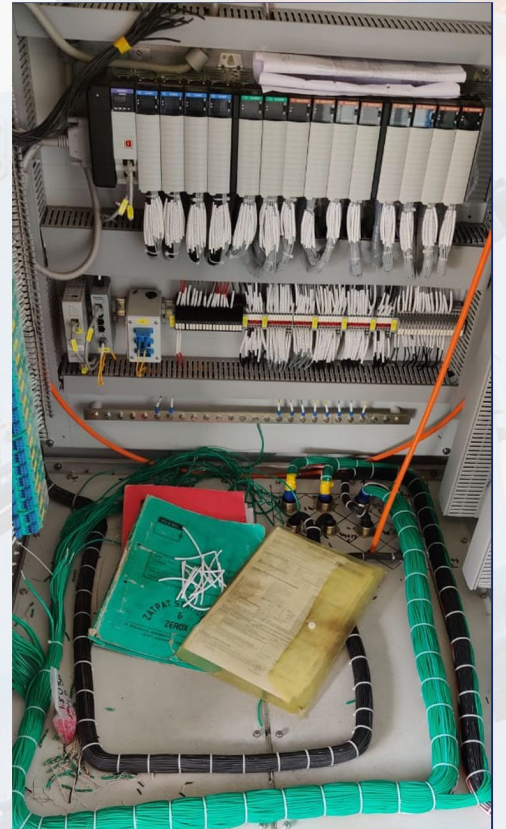

At BS Electricals, the safety and security of our people, our projects and the public are our top priorities. Our team of certified Project Managers, Electricians and Foreman go through extensive training and field testing to ensure that safety of every element of a BS project is protected. Our professionals take certified safety programs unique to their work activity:

Safety is our top priority

- ➔ Project Managers – 40 hours of professional training
- ➔ Foremen – 30 hours of professional training
- ➔ Electricians – 10 hours of professional training
